Version 1.2 Release Notes (8/5/2021)

Fixes:

- Fixed Jets stadium field logo
- Fixed Panthers stadium field logo
- Added missing Green Bay stadium ads
- Added missing franchise team logos
- Updated Lions stadium endzone
- Set controller plugin triggers LB/RB and LT/RT to default
- Set enable cheats

Applying v1.2 Fix

Download the v1.2 pkg version you want from the github.com project site. The v1.2 fix pkg only includes the fixes and is not the full mod.

NOTE: If this is the first time you are installing the NFL2K5 Resurrected Mod, you will want to download the full v1 pkg and install.

INSTALLATION

a) Extract the v1.2 fix pkg you downloaded, and open the folder
b) Move all folders (inis, textures, txtconfig) into your main PCSX2 Mod directory and say YES to REPLACE all files
